Attachments: USEPA Greenaction meeting Hunters Pt talking pts QandA draft 12-19-16.docx

Dear Grant and Mohsen,

Enrique's previous message did not include the most current version, so he asked me to send on his behalf the attached revised draft EPA talking points and Q&A to prepare for the meeting tomorrow at 2 pm with Greenaction. We'd like to hear if you have any concerns about our suggested responses. As he said earlier, this writeup is for internal use, not for distribution. Here are suggested agenda items for today at 4 pm:

1. Introductions
2. Logistics and meeting participants (see below list)
3. Talking points and Q&A, especially clarify state roles in these areas
 - a. Monitoring and analysis of split/duplicate samples
 - b. Disposal
 - c. Technical advisor
4. Next steps

Here is a list of participants from Greenaction:

Bradley Angel
Marie Harrison
Leaotis Martin
Ray Tompkins
Michelle Pierce
Eric Brooks
Steve Castleman
Tony Kelly

We will plan to hand out the EPA letter to Laura Duchnak that we sent last Wednesday. We will also have handy handouts previously distributed to the EJ Task Force about risk to current residents and tenants and about the cleanup standards, which had previously been questioned.

We look forward to talking at 4 pm.
